Item 8.01. Other Events

Redwire Corporation (the “Company”) is hereby providing the updates set forth below with respect to certain of its pending litigation.

On November 5, 2021, the Company was notified of potential accounting issues with a business unit by an employee in connection with his resignation. Management promptly informed the independent Audit Committee and its independent registered public accounting firm. The Audit Committee promptly engaged independent, external legal and accounting firms to complete an independent investigation. After completing its investigation, the Audit Committee concluded that the potential issues raised by the former employee did not require a restatement or adjustment of the Company’s previously issued consolidated financial statements relating to any prior periods. However, the results of the investigation confirmed the existence of previously identified internal control deficiencies as well as identified certain additional internal control deficiencies. The Company self-reported this matter to the SEC on November 8, 2021 and intends to continue to cooperate with any requests from the SEC. On December 17, 2021, the Company, our CEO, Peter Cannito, and our former CFO, William Read, were named as defendants in a putative class action complaint filed in the United States District Court for the Middle District of Florida. In the complaint, the plaintiff alleges that the Company and certain of its directors and officers made misleading statements and/or failed to disclose material facts about the Company’s business, operations, and prospects, allegedly in violation of Section 10(b) (and Rule 10b-5 promulgated thereunder) and Section 20(a) of the Securities Exchange Act of 1934. As relief, the plaintiffs are seeking, among other things, compensatory damages. The defendants believe the allegations are without merit and intend to defend the suit vigorously. However, given the early stage of the proceedings, a reasonable estimate of the amount of any possible loss or range of loss cannot be made at this time.

On May 25, 2022, a plaintiff commenced derivative litigation in the United States District Court for the District of Delaware on behalf of the Company against Peter Cannito, Les Daniels, Reggie Brothers, Joanne Isham, Kirk Konert, Jonathan Baliff, and John S. Bolton. The complaint’s allegations are similar to those of the class action lawsuit filed in December 2021, namely, that statements about Redwire’s business and operations were misleading due to alleged material weaknesses in the Company’s financial reporting internal controls. The plaintiff alleges the defendants violated Section 10(b) (and Rule 10b-5 promulgated thereunder) of the Securities Exchange Act of 1934, breached their fiduciary duties by allowing misleading disclosures to be made, and caused the Company to overpay compensation and bonuses tied to the Company’s financial performance. As relief, the plaintiffs are seeking, among other things, compensatory and punitive damages. The defendants believe the allegations are without merit and intend to defend the suit vigorously. However, given the early stage of the proceedings, a reasonable estimate of the amount of any possible loss or range of loss cannot be made at this time.
